## Veterinary Technician

The Clinique Vétérinaire de Cantley is looking for an enthusiastic and compassionate Registered Veterinary Technician. The right candidate will be offered a full-time position to start immediately.

The Clinique Vétérinaire de Cantley prides itself on providing excellent client and patient care. Our team has several decades of experience and is always on the lookout for the latest in innovation and technology. Moreover, we are fully equipped with the latest laboratory, digital radiography and dental digital radiography technologies.

**Starting date:** Immediately

**Position:** Full-time/Permanent

**Salary:** To be discussed

**Work schedule:** 30-40 hours a week –  
Full-time

**Positions available:** 1

### Required tasks:

- Greet clients, prepare files (including history), answer questions, and make client calls.
- Assist the veterinarian during consultations, digital radiography and surgeries.
- Provide in-patient hospital care under the supervision of the veterinarian or head technician (e.g., blood samples, installing catheters and more.)
- Inform clients about the health of their animal and perform follow-ups if necessary.
- Advise clients on pet diet, preventive care and medication.
- Perform internal laboratory tests and prepare external laboratory samples.
- Other related tasks.
